CCTV operators will also log incidents on their database, so problem areas can be monitored / patrolled and specific issues can be raised for problem solving. If an officer is available at the time of the report, they will attend the area and determine whether the items are abandoned and coordinate their removal where appropriate. If an officer is not available at the time of the report, CCTV operators will make a referral for it to be investigated at the next opportunity and coordinate the item's removal where appropriate.

Reporting begging and individuals sat in doorways

Cheshire West and Chester Council and its partners are fully committed to supporting individuals who are homeless and regularly conduct extensive outreach to encourage individuals to engage with services and access accommodation. Please see step 3 for advice on how to make referrals for anybody you believe may be rough sleeping.

Begging is an activity where individuals attempt to gain donations from members of the public. This is an activity that can have an impact on our city centre and may deter visitors and therefore reduce footfall. Examples of begging include approaching people and directly asking for donations or using a receptacle to collect donations. Busking is not begging, for issues associated with busking, please refer to the busking guidance document.

Reporting fly-tipping

Fly-tipping is simply the illegal disposition of any domestic or commercial waste, contrary to Section 33 of the Environmental Protection Act 1990. All businesses and residents have a 'Duty of care' over any waste they produce to ensure that it is stored securely and disposed of correctly, which for businesses must be done via documented means of disposal, as required by Section 34 of the Environmental Protection Act 1990.

Any fly tipped waste is likely to be significantly detrimental to the city, as it attracts pests (which can then enter nearby premises), it can be a source of fuel for fire, and it also negatively impact the cities visual appeal and therefore opportunities for businesses to generate revenue.

Businesses can only place commercial waste out for the purpose of collection on the highway between 08:30 – 10:30am daily. If you require any help, guidance, or support with business waste related issues, please contact regulatoryServices@cheshirewestandchester.gov.uk

Reporting smoking on the Rows

Smoking cigarettes or other lit articles on Chester Rows is strictly prohibited, not only because of Chester Rows vulnerability to fire, but also because it is a criminal offence contrary to Section 7 of the Health Act 2006 as the rows are a 'substantially enclosed' structure under the Act. Anyone who smokes on the Rows, including on the steps, is committing a criminal offence and may be liable for a Fixed Penalty Notice (FPN) or even prosecution in court. Vaping is not considered to be smoke and therefore isn't covered by this legislation.

Reporting business waste issues

Correct storage of business waste is an essential element of protecting the city centre from pests and other environmental nuisances. All businesses are required to maintain a valid business waste contract from a licensed waste carrier to ensure, and if necessary prove, that all waste has been disposed of correctly. Businesses must retain all 'Waste Transfer Notes' (receipts for waste) for a minimum period of two years from the date of collection.

Businesses have a 'Duty of care' over any waste they produce, no matter how small, to ensure that it is stored securely and disposed of correctly, under Section 34 of the Environmental Protection Act 1990.

Commercial waste contracts that operate on a bag collection basis, can only be placed out on the kerbside for the purpose of collection, between 08:30 – 10:30am within Chester City Centre each day. Should any waste contractor fail to collect these bags within this allotted time, then the business who produced the waste must collect it from the kerbside and return them to within their premises until the following day, as the city becomes pedestrianised after this time and contractors cannot enter.

Waste must never be left out overnight, as this not only an offence and can attract pests, but it has also previously been a fuel source for fires within the city.

Action sought	Explanation of action
<p>1. Report any issues with business waste to Cheshire West and Chester Regulatory Services via email: regulatoryservices@cheshirewestandchester.gov.uk</p> <p>Or via telephone: 01244 973708 (between 10am and 4pm, Mon – Fri)</p>	<p>Reporting business waste issues to Cheshire West and Chester Council allows officers to investigate and address any issues or concerns relating to waste, which therefore protects the city centre environment.</p>

Reporting busking

'Busking' means music, dance, street theatre, performance and art offered live in public spaces. It is about entertaining and interacting with members of the public - usually to receive a voluntary contribution. We ask that businesses and residents respect the right of people to perform in public spaces; however, where an act has a persistent detrimental impact, we will first work to address this collaboratively, using relevant legislation as a last resort if other avenues fail.

For the most recent guide to busking in Chester City Centre, please enter check the Cheshire West and Chester Website.

Action sought	Explanation of action
<p>1. If you feel that a performance has an adverse impact on your business, you can replicate the test the Council will do to determine whether a performance is too loud by closing your front door and speaking to a colleague or customer; if you have to raise your voice to have this conversation with the door closed then the performance is likely to be too loud. In the first instance you can attempt to resolve this matter informally by talking with the busker, we would advise that you wait for a suitable break in the performance before approaching them. If this does not resolve the issue, move to step 2.</p> <p>Alternatively if a busker isn't too loud, but they haven't moved in the last two hours, move to step 2.</p>	<p>To build positive relationships between businesses and buskers in Chester, it is to talk with them first and look at enforcement as a last step in dealing with issues.</p>

They will talk to the busker and the complainant educating them about the law, the Guide to Busking, and next steps. If there is no negative impact, the complainant will be informed of the officer decision and no further action will be taken at the time.</p> <p>If an officer is not available at the time of the report CCTV will log details and share any information with Cheshire West Chester Regulatory Services. If you are unable to report via Co-Sign radio, please report the issue via the contact details contained within step 3.</p>
