

Results from Survey

Perceptions of street entertainment from city businesses

Further to the survey issued to Chester businesses during November and December 2019 we have collated the results received from 114 surveys.

This graph shows the distribution of respondent businesses who completed the survey.

Responses to: Please indicate how long you have been working in Chester city centre?

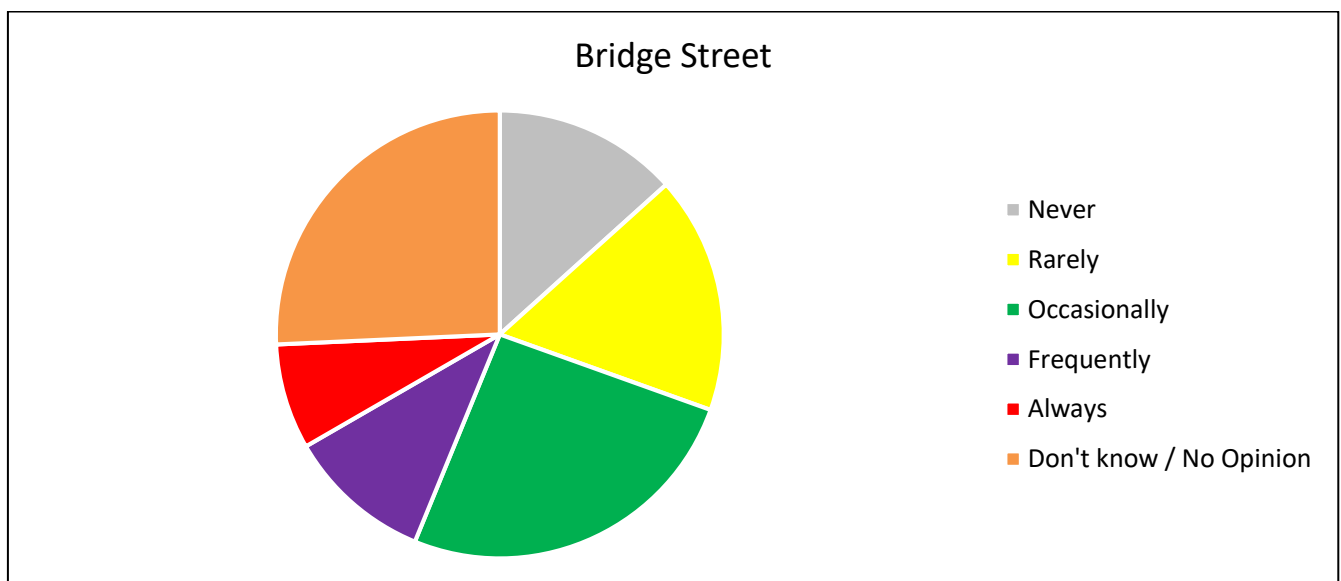

Responses to: [statement] Busking and street entertainment performances add to the attractiveness, colour and vibrancy of the city centre.

Responses to: [statement] Busking and street entertainment performances are beneficial to my business.

Responses to the question: To what extent, if at all, do you think street entertainment is a problem in these areas?
